

SELF-MANAGED SUPERANNUATION

WHO WE ARE

HQB have been servicing the Coffs Harbour region for 70 years, offering excellence in accounting, business advice, and audit. Our Self-Managed Super Fund specialists are readily available to advise clients on the merit of self-managing their superannuation and assist with management of the fund. Our highly qualified team takes the work and worry out of taxation and compliance, reducing the administrative load of managing your own super.

WHO WILL AUDIT YOUR FUND?

Accounting firms cannot complete the SMSF audit if they have prepared the financial statements and tax return for that same fund.

Therefore, we refer your SMSF audit to a suitably qualified SMSF auditor – one where we have reviewed their methodologies to ensure that you continue to receive the highest quality service, with minimal disruption.

COMPLETION & DELIVERY

HQB's super software integrates with other software; offering seamless integration, automation and efficiencies. All SMSF documents will be securely stored and delivered, and we will liaise directly with the auditor throughout the duration of the process.
